

It is in this same spirit of assuring excellence and in order to complement its existing services that **the Swiss Moving Company** has created **the Swiss Moving Services**, which offers its clients reliable solutions before, during and after their move.

DISCONNECTION/CONNECTION

Dishwashers and washing machines that are to be transported should be disconnected by a qualified electrician or plumber. We can arrange for this to be done through our established network of highly-qualified professionals. Similarly, chandeliers and light fittings should be disconnected.

the Swiss Moving Services Team can do this for you.

We can also unplug all your electronic equipment and label your cables, boxes and cords.

At your new home, dishwashers and washing machines should be installed by a professional electrician or plumber.

Our teams can put up chandeliers and light fittings, change plugs, sort out and connect electric cables, set up multimedia items, computers and alarms.

HANDYMEN/DIY EXPERTS

Our handymen have the experience and the tools to meet your needs in carrying out many small tasks such as manoeuvring furniture, hanging pictures and light fittings. Do not hesitate to ask.

GARDEN

In association with professional and experienced landscapers and gardeners, we can take charge of restoring or re-landscaping your garden or of maintaining the grounds of your property.

CLEANING AND PREPARING TO LEAVE A PROPERTY

If you need regular maintenance, spring or deep cleaning of your home, we can offer this service.

We can also provide all cleaning services for end-of-lease or after-sale inventory checks and Property Conditions Reports. Once your furniture has been loaded, we will complete all the subsequent formalities such as deep cleaning, filling, sanding and retouching paint and plasterwork, cleaning etc. so that you can leave your property worry-free.

We offer a “guaranteed departure” and we can deal with and be present for inventory checks and Condition Reports with your landlord or agent.

ASSEMBLING NEW FURNITURE

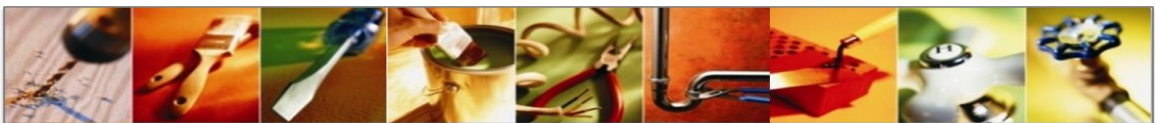

At any moment, a dedicated team can come to your house to assemble new furniture. We can also liaise with **the Swiss Moving Company** to arrange for delivery of furniture to your home.

OBJECTS FIXED TO WALLS AND CEILINGS

All items fixed to walls, floors or ceilings must be detached before the move. Our teams can do this. Likewise, they can attach objects upon arrival.

SORTING AND STORING SERVICE

Should you need help cleaning or storing your belongings in cupboards; ironing, hanging or putting away linen or clothes in your new home, we provide specialist assistance in this area to help you settle in even more quickly.

the Swiss Moving Services is the brand Name of the Swiss Moving Company SA
